CAUTION TO THE PUBLIC. To avoid imposition, purchasers of Waltham Watches To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or siver, bears our trade-mark on both case and movement. Gold cases are stamped "A. W. Co." and guarantee certificates accompany them. Silver cases are stamped "Am. Watch Co., Waltham, Mass., Sterling Silver," and are accompanied by guarantee certificates, signed B. E. Robbins, Treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of either distinguishing marks.

This caution is rendered necessary by reason of the fact that our cases are frequently separated from our

fact that our cases are frequently separated from our movements and put upon worthless movements of other makers, and vice versa, thus affecting injuriously the per-formance of the watches and vitinting our guarantee, formance of the watches and vitinting our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary, also, because it is so natorious as to be a public scandal, that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent, from the quality they assume to be. This is a fraud upon the purchaser, and accounts for the low price at which such cased watches have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full

cased watches have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full plate movements, known by the marks, "Wm. Ellery," "Appleton, Tracy & Co.," "Waltham Watch Co.," "P. S. Bartlett," and "Broadway," giving to them not only a highly improved appearance, but great additional value. We embody in them such of the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good performance and solid excellence at moderate cost. The alterations have been made with the view of pleasing practical watch makers, as well as watch wearers.

We avail ourselves, too, of this occasion to warn the public against cheap watches. The superiority of Waltham goods, in all grades, is now so generally acknowledged that our competitors, Swiss and American, seem to have no resource but to present the attraction of low price. Their goods being inferior to ours, they have low price. Their goods being inferior to ours, they have to sell them for what they can get. Times are hard, and people generally not knowing a good watch from a bad one, very often allow a small price to decide them. William Morris, the eminent English Lecturer on Artand or Topics, in a recent lecture delivered before th

Labor Topics, in a recent lecture delivered before the
"Trades Guild," says:
"I know that the public in general are set upon having
things cheap, being so ignorant that they do not know
when they get them nasty, also so ignorant that they
neither know nor care whether they give a man his due;
I know that the manufacturers, 'so-called,' are so set on
carrying out competition to its utmost, competition of
cheapness, not of excellence, that they meet the bargain
hunters half way, and cheerfully furnish them with nasty
ware at the cheap rate they are asked for by means of wares at the cheap rate they are asked for, by means of what can be called by no prettier name than fraud." We are much mistaken if this is what the public wants We are much mistaken it this is what the public wants or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in his occupation; interest and pleasure in the work are both wanting, and both are essential to good watch-making. Low price, especially in watches, MEANS LOW QUALITY, With all the Stock, Appurtenance and Sugar Cane thereon, consisting of an area of about 950 Acres, of which about 20 acres are in fee simple, and the rest are under long leases of Twenty and Twenty-five years, with right of removal; the annual rental being \$1,500. With all the Houses, Tenements, Growing Crop of Sugar Cane, Working Cattle, Horses, Ox Carts, &c., &c., as follows:

There are 223 Acres of Sugar Cane planted and growing, of which 93 Acres cestimated to yield 350 Tons Sugar, will be ready to grind in June, 1879, and the balance of 130 Acres one year later, say June, 1880. The Cane is all in a Scurishing condition. The present Crop is under contract to be ground at East Mani Plantation, the latter hauling the cape to the mill, and receiving one half of the sugar. Low price, especially in wateres, shears, both quality, with Low perspectation was, and our business is, to make good watches, whatever the cost; holding firmly to this single purpose, we have seen improvement in quality and reduction in cost, by means of discoveries and improvements in machinery and by natural causes, go steadily on together, until we can truly say, Waltham Watches, in their respective grades, are the best watches made, and as to the lower grades, they are within reach of everybody who earns wages. Our prices are as low as they ought to be, and as low as they will be. Watches cannot be made for nothing, even by machinery. We say to the public, buy a good watch while you are about it, and pay a proper price for it. The more you pay an honest dealer the better satisfied you will be in the end; don't be deceived by cheapness—quality descends faster than price. For American Watch Co., of Waltham, Mass.

SATURDAY, MAY 10. BRIEF MENTION.

HEAVY IMPORTS .- Some idea may be got of the smount of our imports from abroad, when it is stated that the receipts at the Honolulu Custom House for

the month of April were \$32,000. WELCOME RAIN .- It is gratifying to hear that during the late Southerly weather, the districts of Kona and Kau, Hawaii, are reported to have had

frequent showers for two days. The schooner Bonansa, which arrived from San Francisco on Wednesday last, had, as cargo, a license. Heretofore no license has been required for the lot of materials for the new sugar mill to be erected sale of salt salmon, but the privilege having been abused at Waianae, for which place she sailed on Thursday

the above rule will be enforced.

Sam'l G. Wilder, Minister of Interior.

Interior Office, May 8th, 1879. THE BIG DITCH OF MAUL.-The Haiku ditch was MR. D. S. KAHOOKANO has this day been appointed formerly known by the above title, but it will here-Agent to take Acknowledgments to Contracts for Labor after belong by right to the enterprise now being carried on by Mr. Schussler for Mr. Spreckles. Minister of the Interior. strange occurrence, as of the number, seventeen in all, lights were displayed on only two, and it was not a night that lights could very well be dispensed with.

The Concert of vocal and instrumental MB. GEO. BELL has this day been appointed an Agent music at the Kawaiahao Church on Saturday evenfor taking and certifying the acknowledgments to Instru ing last, for the benefit of the Manoa Church building fund, realized about \$250. The Hawaiian Nightingale, Miss Waianika, was in excellent voice, and gave several solos with remarkable effect. In any other country but this, and with proper tuition, her voice would prove a fortune. " Floating MR. GEO. BELL has this day been appointed an Agent on the Tide," a quartette, was sung in admirable to take acknowledgments to Contracts for Labor in the style by their Royal Highnesses Lillinokalani and District of South Kohala, Island of Hawaii, vice John Likelike and Messrs. Hiram and Kaina. Mr. Berger presided at the piano, which is tantamount to saying that the music was first class.

PACIFIC SUGAR MILLS Co .- A correspondent writing from Hamakua, Hawaii, gives some facts in regard to the enterprise above named, the lands of which are situated uear the valley of Waipio. They have about 180 acres of very good cane, six to eight months old, and during the last three weeks of April there was an abundance of rain to mature the crop. There are some 200 acres plowed, which will be planted in May and June. Grading is going on for the track from the landing to the mill site, about one mile. Buildings are Hack Race; one mile dash; open to all horses that have not run in previous races of the day, or that have not won a prize in any public race. Entrance \$2. Second

Notice is hereby given that all Licenses must be applied for direct to the Interior Office, and all parties are have been laid to the mill site; a fine derrick has been put in position; and the necessary responses. been put in position; and the necessary preparations are being made for a lively time during the coming months, under direction of the experienced and energetic manager, Mr. Coakes.

MALICIOUS MISCHIEF .- Some time during Sunday last, a party or parties unknown but supposed to OAHU— 1 Grant & Robertson, cor Hotel and Fort sts, Honolulu 1 L Ahlo, Hecia, Koolaupoko belong to the class " hoodlum," entered the boilermaker's shop at the Honolulu Iron Works and proceeded to "cut up" in a most reckless manner. They smashed the clock of the establishment; unscrewed and threw about the brass couplings of the machinery; upset things generally, and finished by daubing everything that was at hand with paint. The police were notified of the outrage, but so far we believe that no trace of the perpetrators has been found. The Foundry people are quite of opinion that it was the work of "hoodlums," a class of youth that has unfortunately become quite numerous here of late, and that the mischief was done not out of any spite against the Works or its owners, but only from pure "cussedness." We hope that the parties, whoever they are, may be brought to condign punishment. Not a week passes but that we have to chronicle the evil doings of the class referred to, and it is high time that some of them were brought before His Honor the Police Magistrate and made such an example of as will put a stop to then lawless proceedings.

WATER WORKS .- Water, water everywhere, but not a drop to drink," quoth the Ancient Mariner; and that was the complaint of a good many people in town last Thursday. We are extremely glad to note that the cisterns at the street corners are being put into a condition of effectiveness for actual use in case of fire, and we are aware that in order to properly perform the work the water in the main pipes must be shut off in certain parts of the city. But we suggest, that as a matter of right, before so outting off the water the rate-payers on the line should be notified, in order that they may be afforded an opportunity to lay in a supply of this every day necessity. We hear that in some localities, the people were so notified, by native employees, and other not, and the latter was the case at the printing establishment of this paper. Some twelve of our employees, who in this hot weather are accustomed to drink more or less water during working hours, were compelled either to go dry or go somewhere else for a drink; besides which, water is required in our business. When a similar stoppage occurred some two weeks ago, without notification from the official in charge of the water works, we refrained from making any complaint, with the hope that the annoyance would not again occur. But it appears

### that the thing is getting chronic.

NOTICE.

### Mr. Claus Spreckels, of California, intends

to construct a large Ditch on the Island of Maui, for irrigating purposes. Any person or persons willing to excavate or dig 500 feet or more of this ditch by contract, and be paid for such work either by the number of cubic feet or by the number of running feet of the ditch excavated, are requested to apply to H. Schussler, Haiku, Maui, or to Wm. G. Irwin & Co., Honolulu, who will give them the necessary information CLAUS SPRECKELS.

Music.-The Band will play this afternoon at Emma Square, at half-past 4 o'clock The following is the programme: Overture-Light Cavalry.

Waltz-Springflowers. " WHAT'S IN A NAME? "-It will be remembered that Wilder & Co. made the offer some time since, to give a free passage for one year to any one who should guess the name of their new steamer now finished at San Francisco. We learn that one bundred letters have been received, suggesting three hundred different names. Out of these, two lacky individuals have hit upon the right name, both natives, one living on Kauai and one in Honolulu. We learn that the name is a Hawalian one, and we shall be pleased to disclose it to our readers on the arrival of the boat, which may be

looked for from the 15th to the 20th instant.

20 The Farewell Concert at the Lyceum on

Finale-Lucia, March-Nancy Lee

Thursday evening last by Mad. Jenny Claus, was such a delightful musical treat that we shall not be surprised if a repetition is demanded. All who have had the good fortune to hear Madame Claus' wonderful execution on the violin, will readily acknowledge with us that her performance on the present occasion was simply superb. The gem of the evening was conceded to be the "Fantasia on Fanst." The overture from Mendelssohn was rendered admirably on the piano by two lady ama-teurs. The ballad singing was natural and happy, and was well appreciated, being as it were, a kind of offsett to the somewhat high tone of the reper-toire. A very full and appreciative audience filled the hall. The outside gathering was also very large in number, and could compare in that respect very favorably with the inside audience. They, too, seemed to appreciate the endeavors made by the performers to please, and although not loud in their tokens of satisfaction, there was a deep feeling per-vading the assembled outsiders that " music hath charms," and one remark that Madame J. C. was a "charmer," met with decided approbation. The music of the various parts was well rendered, and the evening passed every pleasantly, the only cause for dissatisfaction seeming to be the lack of programmes. When the next concert is given the person having that matter in charge should see that programmes are distributed outside as well as inside, and thus contribute to the comfort of a "large material"."

TRIVIAL, DOUBTFUL PROPRIETY .- Under these terms the Gazette of this week dismisses the propositions put forth at a late meeting of the Library Association to form a glee club and a debating club. Music, says the Gazette, "is of trivial importance and doubtful propriety," and it goes on to show that a debating club would be about the same. Music of trivial and doubtful propriety!

"Preposterous ass! that never read so far To know the cause why music was ordain'd! Was it not to refresh the mind of man After his studies or his labor's pain?"

The reason why we should not have a debating club is said to be because it would beget strife and consequently bad blood, our community being composed of all nationalities, with creeds and opinions as various as the nationalities, therefore there would be conflicts, bitter things would be said, discord and division would be the result. Worthy members would withdraw in disgust and the whole thing come to naught. We really fail to see it in that light, and our experience of the general effect of debating societies leads us to believe that they are beneficial. There certainly can be no debate when all are of one opinion, and universal duliness is the result. The very style of argument used by the Gazette man indicates that he himself is some sort of a debater,
